

NEW SECURITY MEASURES ON FLIGHTS TO/FROM THE UNITED STATES

Interjet informs its customers that, according to the new arrangements of the United States Department of Homeland Security, from 19th of July, new security measures came into effect on flights from/to this country.

People who are carrying electronic devices bigger than a smartphone, such as tablets and laptops, will be subject to an additional inspection, that's why we suggest removing any kind of cases and/or packaging to those devices.

Still when these measures won't interfere in our flight operational processes, Interjet recommends its passengers to arrive at the airport at least 3 hours prior to the scheduled departure time.

For Interjet, the well-being of our passengers is our highest priority. In order to prevent inconvenience or delays, we invite you to check the [U.S. Department of Homeland Security website](#).

For any further information, you can contact us from Mexico City by calling (55) 1102-5555, or 01 (800) 0112345 from elsewhere in Mexico. You can also check our website www.interjet.com
